REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: the claims are drawn to a method of detecting the presence of a DNA fragment located within an at risk allele of an SCA8 (spinocerebellar ataxia type 8) coding sequence by analyzing an amplified DNA fragment, amplified using primers chosen from nucleotides 1-448 or 726-1,159 of SEQ ID NO:1, having at least about 80 CTG repeats in the repeat region or at least 92 combined CTA and CTG repeats in the repeat region. The claims are allowable over the prior art as the prior art does not teach or fairly suggest an at risk allele of SCA8 or the sequence of SEQ ID NO:1 or primers chosen from nucleotides 1-448 or 726-1,159 of SEQ ID NO:1. The claims are further drawn to the above method using primers with SEQ ID NOS 4-6, 8-9 and 12. These claims are allowable over the prior art as the art does not teach oligonucleotides consisting of these sequences. The claims are also drawn to determining whether an individual is at risk or not at risk for developing SCA8 by detecting the number of repeats in the repeat region of SCA8 wherein an individual who has least about 80 CTG repeats in the repeat region or at least 92 combined CTA and CTG repeats in the repeat region is at risk while an individual that has less than 80 CTG repeats or no greater than about 91 combined CTA and CTG repeats is not at risk of developing SCA8. These claims are allowable over the prior art as the art does not teach or fairly suggest determining whether an is or is not at risk for developing SCA8 nor does the art teach a SCA8 coding sequence or how many CTG or combined CTA and CTG repeats in an individual's SCA8 coding sequence are

Art Unit: ¹⁶³⁴~~1655~~

indicative of developing SCA8. The kits and oligonucleotides of the instantly claimed invention, which are drawn to oligonucleotides chosen from nucleotides 1-448 or 726-1,159 of SEQ ID NO:1 or to oligonucleotides which consist of at least 15 contiguous nucleotides from nucleotides 1-448 or 726-1,159 of SEQ ID NO:1, are allowable over the prior art does not teach the sequence of SEQ ID NO 1 or to oligonucleotides which are chosen from or consist of at least 15 contiguous nucleotides of nucleotides 1-448 or 726-1,159 of SEQ ID NO:1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner Jehanne Souaya whose telephone number is (703)308-6565. The examiner can normally be reached Monday-Friday from 9:00 AM to 6:00 PM.

INFORMATION ON HOW TO EFFECT DRAWING CHANGES

1. Correction of Informalities -- 37 CFR 1.85

New corrected drawings must be filed with the changes incorporated therein. Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and centered within the top margin. If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings **MUST** be filed within the **THREE MONTH** shortened statutory period set for reply in the "Notice of Allowability." Extensions of time may **NOT** be obtained under the provisions of 37 CFR 1.136 for filing the corrected drawings after the mailing of a Notice of Allowability. The drawings should be filed as a separate paper with a transmittal letter addressed to the Official Draftsperson.

2. Corrections other than Informalities Noted by Draftsperson on form PTO-948.

All changes to the drawings, other than informalities noted by the Draftsperson, **MUST** be made in the same manner as above except that, normally, a highlighted (preferably red ink) sketch of the changes to be incorporated into the new drawings **MUST** be approved by the examiner before the application will be allowed. No changes will be permitted to be made, other than correction of informalities, unless the examiner has approved the proposed changes.

Timing of Corrections

Applicant is required to submit acceptable corrected drawings within the time period set in the Office action. See 37 CFR 1.85(a). Failure to take corrective action within the set period will result in **ABANDONMENT** of the application.
